

Welcome back!

We hope you have had a fabulous holiday.

During this half term, we will be linking many of our subjects to our topic, Your Area- You Decide.

Our class read for this half term will be Wonder.

Thank you for all your hard work and support so far this year.

Mrs McIvor, Mr Worth and Mrs Furnidge

Creative Curriculum

Our topic this half term has a geography theme. We will be looking at sustainable buildings, completing traffic surveys and planning a potential redevelopment of a local site.

As part of this topic, we will create a living sculpture using recyclable materials.

English

This half term, we will be revisiting the skills in both grammar and reading that the children will need for their SATS.

We will then be focusing on writing a non-chronological report and some short pieces relating to advancing action through dialogue and descriptions.

Science

We will be looking at classifying living things into broad groups. We will look at different types of micro-organisms and Edward Jenner, as well as animal and plant habitats.

Your Area -You Decide

Music

During this half term, the children will use places from their local environment to compose a piece of music using voice and percussion instruments.

Homework

During this half term, we will continue to give each child a piece of grammar and reading homework. Spelling tests will link to the class spelling rule for that week. Maths homework will continue as normal.

Maths

During this half term, we will be covering data handling and statistics.

We will also be recapping previously taught topics from earlier in the year and practising their reasoning.

PSHE

We will be learning about puberty and human reproduction.

We will move on to following the Real Love Rocks programme that covers balanced relationships, internet safety and grooming (at an age appropriate level). We will be looking at homophobic bullying.

Please contact your class teacher if you have any questions about this.

Re

During RE, we will be looking at the Re unit - what can be done to reduce racism?

PE

The children will continue with their games session on a Wednesday and will be looking at indoor team games and gymnastics on a Tuesday.

ICT

The children will use Tinkercad to create their own sustainable housing development.
